## ABOUT US

**Cathy Valdez, our CEO, is celebrating 20 incredible years with Project MEND (Medical Equipment Network for those with Disabilities) - a legacy of providing independence and mobility to our community. This year, we honor Cathy and Project MEND for decades of impact, innovation, and compassion. She has witnessed firsthand the growing need for medical equipment, particularly as Texas' population, especially in San Antonio, has rapidly increased. Her dedication to addressing these challenges has transformed the lives of those in need, bridging critical healthcare gaps. For over 33 years, Project MEND has been a true beacon of hope. We provide essential medical equipment for individuals living with disabilities and illnesses, empowering them to live life to the fullest. Our commitment has only grown stronger over the years, and your support is instrumental in helping to meet the growing demand. Since moving into our Headquarters and Fulfillment Center four years ago, we have more than doubled the number of those we serve. Last year alone, we were able to support nearly 2,700 individuals, providing over 6,200 pieces of Durable Medical Equipment across 61 counties in Texas. At Project MEND we believe mobility and independence are basic human rights.**
